THE
**TUDOR BOOKS OF
 PRIVATE DEVOTION**

By Helen C. White. A survey of the development of a central type of sixteenth-century book which has been long neglected, and is important for its religious, historical and literary significance alike. The first manuals of private devotion were the traditional books of hours, or primers, which under the impact of a century of controversy were made instruments of religious change.

Miss White's study epitomizes the conflicting religious currents of the century. Under her sympathetic and discriminating analysis these devotional books are shown to have importance which they have not hitherto received.
